

Professional Development Programme

IMAGE EDITING

The Image Editing programme covers the essential concepts and skills for working with digital images including creating, editing, and outputting. Students will develop strong skills and learn best practices in image editing.

This programme is suitable for a broad audience, including students, academics, entrepreneurs, workers, and anyone interested in exploring their creativity through image editing.

Students will receive an ICDL Certification upon passing the assessment.

Programme Outline

- Concept of imaging
- Image capture processes
- Image editing
- Working with images
- Drawing and painting tools

Objectives

- Explore different image formats and options
- Recognise ways to edit, enhance, and manipulate images
- Review various functions within an image editing application and how to use them
- Apply a variety of effects, filters, overlays, and other modifications to images
- Learn how to output images correctly based on their intended use
